FOR AUSTRALIAN

MELBOURNE, Australia-(Correspondence of the Associated Press.)-Germany's designs upon Autralia as part of her reputed comprehensive policy of attaining command of the Persian Gulf and control of the sea routes converging upon the Suez Canal have been revealed among certain striking facts just made public by the federal authorities. These revelations deal with German espionage chiefly

on the eve of the war. As northern West Australia is but a few days by steam from southern Asia and, of all the Australian states. West Australia is the most thinly peopled, it would appear that German scheming and spying were directed upon that part of the continued in particular. An intercepted de-

Australia, is believed by Australian officials to bear out this presumption.

According to information in possession of the commonwealth defense department a German representative in U. S. OFFICIALS SEE Australia remarked to an Australian official some time before the war broke out that the commonwealth was making very little use of the northwestern part of Australia and that it would serve admirably for a German settlement. The department officials are convinced that the questions put to the Rev. Mr. Bischofs were with the ulterior motive of providing the German government with data about what it believed to be a vulnerable Australian authorities.
